

sprint.family

The most versatile banner display solution

The sprint is a banner stand with a telescopic pole that can reach a height of 11" (15' for the sprint.5).

Several widths are available to display single or double-sided graphics on the same frame, or to use rigid or flexible substrates.

The sprint (made for nomadic applications) has 3 feet linked with bungee cords for a quick, simple and secure automatic set-up.

The sprint.boutique (made for sedentary applications) has a steel base in either round of flower shapes that offers maximum stability for high-traffic areas and retail displays.

BANNER STAND

starter.family

The 1st class solution among the low cost banner stands

The smart concept of the starter offers a competitive price on a high-quality structure composed of aluminum and powder-coated steel. Due to the tension between the bungee cord and the stand's other components, the starter is very easy to set up.

BANNER STAND

sprint.relay

The low-cost backwall solution made with sprints

The sprint.relay creates a seamless graphic backwall at a fraction of the cost of a traditional pop-up display by linking up to 4 sprints.

sprint.lightbox

Innovative portable backlight system

An attractive display application for the sprint made possible by an innovative backlight system which allows your graphic to really stand out. 2 Sizes: 4' x 32" and 6' x 32"

sprint.shop

Integrated slatwall panels

The shop slatwall locks securely onto the sprint telescopic pole to accommodate a variety of accessories used to promote your marketing message or highlight your products. It can be left visible or hidden behind a graphic panel according to your preference!

- Apparel Holder
- Shelves
- Brochure-Holder
- LCD Screen

The slatwall bracket is a standard size to accommodate all slatwall accessories already available on the market.

Each starter includes a set of clipping hangers and kickers that facilitate effortless image changes!

starter.800

Width 31.5" Height 80"

starter.100

Width 39.37" Height 80"

The starter takes up very little space -- less than 12" in depth -- which makes it the perfect display solution for all different locations, such as malls, retail stores, and meeting rooms.

Telescopic plastic tube available as a case option

No lost parts! All parts are held together with a bungee cord.

match.family

Our most cost-effective, durable retractable banner display stand

Lightweight, compact and highly visible, the match is your ultimate road-warrior for your visual communication.

The match is a breeze to set up -- simply raise the spring-loaded graphic panel from its base and attach to the top of the pole!

RETRACTABLE BANNER STAND

match.2sides

The most cost-effective, durable retractable banner display

The match.2sides is a double-sided retractable banner stand. It includes a unique cassette system and a clipping hanger which allows you to change your image and add tension without using any tools.

RETRACTABLE BANNER STAND

match.

With the match, your graphic is well-protected within the retractable casing during both transportation and storage.

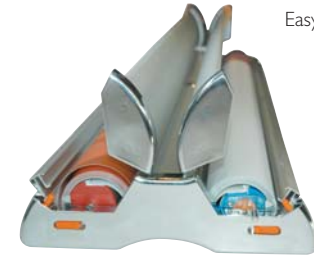

Add depth and 3D appeal to your marketing message by layering two graphics on the same side of the stand.

← graphic # 2 (green)

← graphic # 1 (gray)

Easy graphic exchange
No replacement cassette needed
Clipping hanger
Easy tension adjustment

match.

Sizes

match.slim: height 79" - width 18.5"

match.850: height 79" - width 33.38"

match.1000: height 79" - width 39.31"

match.1200: height 79" - width 47.25"

(The pole height can be custom cut on request)

Discover the NEW match.slim (470mm, 18.5" in width). Create a BIG visual impact in a small space!

match.2sides

Sizes

match.2sides 850: height 84.5" - width 33.38"

match.2sides 1000: height 84.5" - width 39.31"

The pole height can be custom cut on request

set.family

The new set delivers your message with a sleek design and many useful features

The set.retractable banner stand features a pivoting and self-locking foot for unmatched stability.

The duo signature telescopic pole is light compatible and allows you to adjust the graphic height between 35 and 90 inches.

RETRACTABLE BANNER STAND

hello

High Impact "all-in-one" road-show kit

That's right -- the shipping case converts into a display counter and storage holder with the capacity to hold two of our retractable banner stands!

The ultra-portable and easy to use hello provides maximum marketing exposure in addition to an optimized working area for face to face presentations, training seminars, road-shows, or recruiting events!

ALL-IN-ONE SOLUTION

set.800

Graphic exchanges are simplified with our easy change of image system (ECI), a sliding connection on the leader tape that works as effortlessly as a resealable plastic bag. Simply pull out and secure with the allen key, slide on the new graphic, and you are ready to go!

hello

The hello standard kit includes:

- 1 Rotomolded shipping case (gray) with wheels.
- 1 polypropylene wrap (white)
- 1 aluminum connection slider bar
- 1 counter top
- 2 retractable banner stands: match or set

Holds 2 match.850 (33.375") or 2 Set.800 (31.5") retractables

Advantages:

- Set-up within minutes
- No tools required
- No large package surcharge (with UPS, FedEx and airline companies)
- No ugly shipping cases lying around during your presentation -- the case IS the counter!

set.family

Sleek Design, Adjustable Height Retractable

set.600 Height from 35" to 90" – Width: 23.63"

set.800 Height from 35" to 90" – Width: 31.5"

set.1000 Height from 35" to 90" – Width: 39.31"

set.1200 Height from 35" to 90" – Width: 47.25"

hello

Dimensions / Weight

Case (when folded): Length 38.75" x Width 17" x Height 9"

Counter (when assembled): Length 38.75" x Width 17" x Height 35"

Graphic (Wrap): 96.88" x 33.5" (fabric sleeve, direct printing, adhesive vinyl or laminated graphic attached with velcro)

Counter only: 21 lbs

Counter and two retractable banner stands: 36 lbs

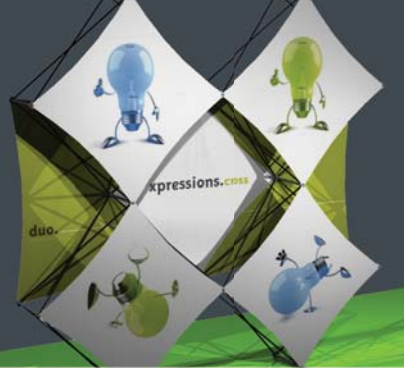

xpressions.family

Instant set-up, Instant Impact

xpressions is a family of self-locking frames made for 3D tension skin graphics. xpressions is a lightweight display solution that provides easy-set up and quick change of image!

A unique concept that enhances your creativity and gives dimension to your message!

Many configurations available -- just use your imagination

FABRIC DISPLAY

xpress.

The All-In-One Exhibit Solution for xpressions

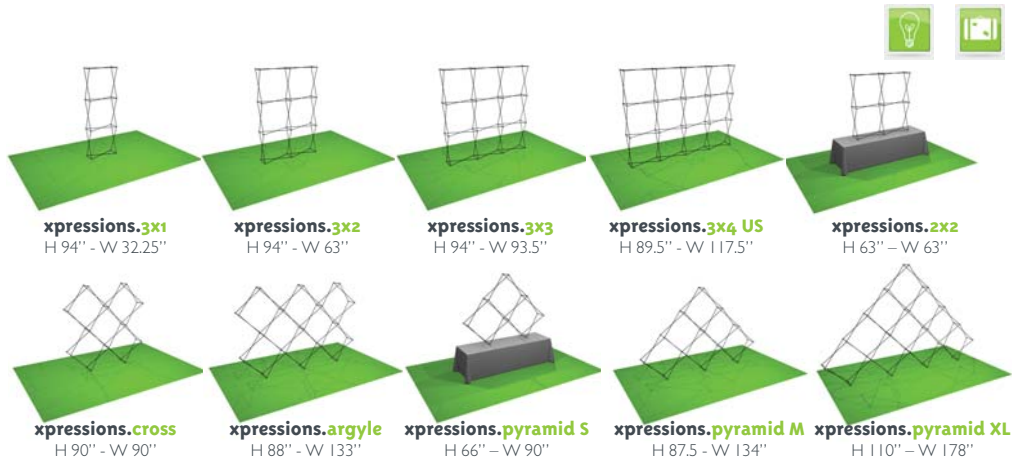

xpress is an easy and lightweight system ideal for going out to meet your customers wherever they may be. Its unique rolling rotomolded case holds two shelves and two 3x1 xpressions pop-up displays. The case even converts into a sturdy display counter!

The shelves allow you to connect the 2 3x1 pop-up frames and achieve the appealing 3D effect of the xpressions system.

Your result -- a fantastic solution for a 10'x10' show space. Many options and configurations are available; you can even create a 3x3 backwall with only two 3x1 frames by connecting the shelves and graphics.

ALL-IN-ONE SOLUTIONS

xpress. Advantages:

- Adapt your message to each event!
- Less than 10 min to install this 10'x10' display solution!
- Economically and easily shipped without airline or shipping companies' large package surcharge.
- xpress kit includes the xpress case, two 3x1 xpression frames, and 2 vacuum shelves.

xpressions.family

xpress.

Dimensions

- Package dimensions: L 18" x W 10.5" x H 37"
- Graphic dimensions:
- Xpressions 3x1: Height: 94" x Width: 32.25"
- Communication area:
- Counter: 23.87 sq ft
- Xpressions 3x1: 2x20 sq ft = 40 sq ft xpress dimensions
- Case dimensions: L 18" x W 10.5" x H 37"
- Graphic dimensions: (3x1) H: 94" x W: 32.25"

The communication area can be increased in size by linking the two 3x1 frames with another graphic.

Total kit weight: 44 lbs (xpressions.xpress case, 2 shelves, 2 xpressions frames and graphics).

Covered by U.S. Patent No 7,191,555. Foreign and domestic patents pending.

easy.family

The fabric backwall for display communication!

The ergonomic and simple design of the easy provides a quick set-up time -- less than one minute start to finish.

Even when folded, your fabric graphic stays attached to the frame and wrinkle-free. Lightweight and mobile, the easy is a great solution to maximize the impact of your visual communication.

FABRIC DISPLAY

bulbo.family

The most original air-pulsed solution!

The bulbo is designed to display a perfectly tight graphic that reaches as high as 14 feet in less than a minute of set-up time. Its rotomolded shell with rounded design guarantees complete protection of the both the graphic and engine during transportation.

Ideal for:

- Event marketing (unique design and very quick to set-up)
- Trade-shows (reduce drayage costs while being seen from everywhere)

Please contact us to inquire about dye-sub fabric graphic options, including custom shapes.

INFLATABLE DISPLAY

easy.family

- easy.2x2**
H 63" - W 63" Tabletop
- easy.3x2**
H 94" - W 63"
- easy.3x3**
H 94" - W 93.5"
- easy.3x4 US**
H 89.5" - W 117.5"

bulbo.air

- More than 65 square feet of graphic presentation in a 16 inch case!
- Graphic can extend up to 14 feet high and gives a 360 degree visual impact!

easy.family

The concept of the easy is very unique. Without magnets or hooks, the graphic keeps the frame open.

This concept has 2 advantages:

- The graphic dictates the size and the shape of the frame, so its tension is always perfect.
- Because there is no hook to remove before collapsing the frame, there is no risk of damage.

This is our guarantee of reliability and success for your event!

Customized configurations available.

mercure.family

blue.family

The blue is a family of self-locking curved and straight pop-up frames. This beautiful display solution combines innovative technology and elegant design to provide top of the line modular architecture to any space. The blue family has many different configurations (curved or straight in various sizes), offers a large range of accessories, and is delivered in a rotomolded container with an optional case-to-counter conversion kit.

Our commitments:

- All our blue kits are complete; no hidden costs and no additional parts.
- All kits are delivered with spare parts and an extra bulb for on-site repairs.
- All kits feature a lifetime warranty against manufacturer's defects. If damage occurs due to usage or shipping, you can repair in-house (with our guidance), or ship back to our warehouse for repairs.

BACKWALL SOLUTION

holdup.family

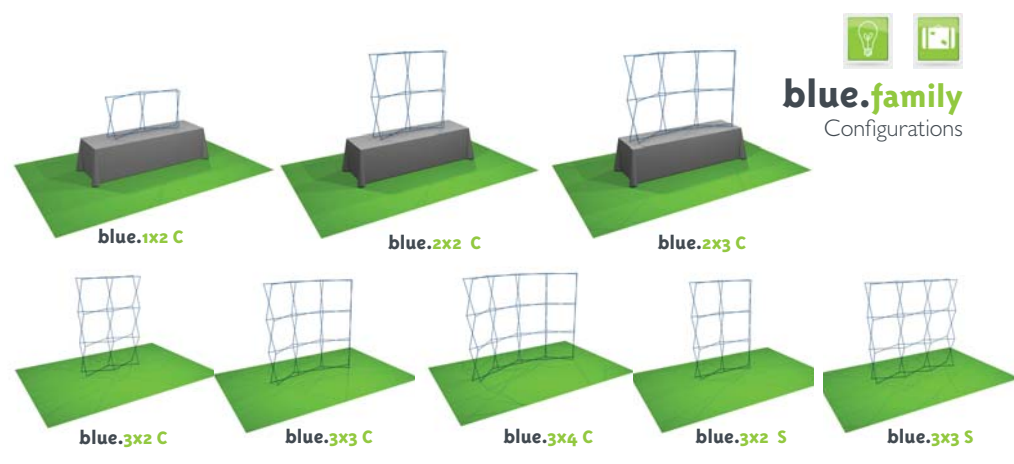

The 2-in-1 brochure-holder/ banner stand solution

The holdup.ds is a never-before-seen visual concept that combines the functionality of the holdup brochure holder with the visibility of the sprint banner stand.

With its dual functionality, holdup.ds saves space, and is an economical solution to take on the road or to display in-house. Thanks to its high-quality materials, such as polycarbonate trays, an MDF base, and anodized aluminum pole, the holdup.ds is both durable and reliable in its service to your communication needs.

Hard shipping case available

holdup.vision

With holdup.vision, you can easily combine the efficiency of three products in one display thanks to its LCD screen mounted on a sleek brochure holder, and a large graphic banner pulling everything together.

The LCD screen reads videos from an SD or a Compact Flash Card, has integrated speakers, and is delivered with a remote control.

shipping.solutions

Transport protection for your image carrier

Because your needs change depending on whether you travel by plane, by car or by foot, Duo offers a full range of shipping solutions. Flexible or rigid, big or small, you now have the choice of the appropriate travel case for all your needs.

lighting.solutions

Universal lighting solutions

Duo's lights are universal solutions for all of our products that have the standard fixture. They are also adaptable to many other products on the market. Bags are available for all our lights.

All of our lights are ETL listed.

ACCESSORIES: LIGHTS

Cases

Recommended shipping solutions

lighting

Duo provides light solutions that are universal for all the Duo products.

50W Halogen Spotlight

Las Vegas Compliant

Recommended for banners (sprint), retractables (set), mercure frames and tabletop (xpressions, easy, blue, mercure)

200W Halogen Spotlight

Non Las Vegas Compliant

Recommended for backwalls, xpressions, easy, blue and mercure exhibit and frame solutions

LED Lights

Las Vegas Compliant

Recommended for ALL Duo products!

Reduce cost and consumption. The Duo LED lights use 22 times less energy compared to a 200W Spotlight. Reducing Tradeshow lighting cost by lowering the electricity wattage ordered from the contractor.

Our LED lights use new generation LED and are 15% brighter. Cool to the Eye. Cool to the Touch!
